

Data Sheet

LG 36814

LG 36814 : Suitable for high yield environments in Rabi Season

Grain Color	:	Orange Yellow
Grain Texture	:	Semi Dent
No of Rows	:	12-14
Shelling%	:	78%-80%

Recommended Geography : Rabi sowing areas of Andhra Pradesh, Telangana , Bihar, West Bengal , Madhya Pradesh , Maharashtra, Uttar Pradesh , Jharkhand, Assam , Chhattisgarh & Odisha

Key Features

- Suitable for close spacing sowing
- Earliness – Early to harvest
- Highly consistent and stable
- Attractive orange yellow color grain
- Excellent cob uniformity
- Stalk Rot (PFSR) Tolerance
- Good heap appeal
- Capacity of Producing productive double cob in wide spacing
