

Data Sheet

LG 36609

Suitable for low yield environments in Kharif season

Grain Colour : Orange
Grain Texture : Semi Flint
No of Rows : 12-14
Shelling%: 80%-82%

Recommended Geography

Karnataka, Telangana, Maharashtra, Madhya Pradesh, Rajasthan, Chhattisgarh, Jharkhand, Uttar Pradesh & Punjab

Hybrid Information

Maturity Medium – 90-110 days
Plant Height 200-210 Cms
Ear Placement 105-115 Cms
Cob Placement Medium
Husk Cover Good
Shank Colour White

Key Features

- Long and attractive cob
- Orange colour
- Suitable for rainfed conditions
- Long ear size
