

## Data Sheet

LG 36612

### Suitable for high yield environments in Kharif season

Grain Colour : Orange Yellow  
Grain Texture : Semi Dent  
No of Rows : 14-16  
Shelling% : 80%-82%

**Recommended Geography**  
Karnataka, Telangana & Maharashtra

### Hybrid Information

Maturity Medium –  
110-120 days  
Plant Height 205-215 Cms  
Ear Placement 90-100 Cms  
Cob Placement Low  
Husk Cover Good  
Shank Colour White

### Key Features

- Long and attractive cob
- Moderate tolerant against Stalk rot
- Robust ear size
- Uniform ear size
